

FDSB291, FDSB292, FDS221-R, FDS221-W

Sinteso™

Sounder bases, Alarm sounders

addressable (FDnet), collective

- **Sounder base FDSB291**

- 11 tonalities selectable, 2 activation levels programmable
- Sound intensity up to 88 dB(A), adjustable on 2 levels
- Compatible to all addressable Sinteso point detectors
- Connector for 1 external alarm indicator
- Power supply and communication via FDnet

- **Sounder base FDSB292**

- 1 tonality intermittent, 1 activation level
- Sound intensity 84 dB(A)
- Compatible only with the FDOOT241-9 / FDOOT241-A9 on a collective detector line
- Connector for 1 external alarm indicator
- Power supply via detector line

- **Alarm sounder FDS221**

- 11 tonalities selectable, 2 activation levels programmable
- Sound intensity up to 99 dB(A), adjustable on 3 levels
- Compatible to the addressable detector base
- Use of base accessories or sealing element possible
- Monitoring of device status
- Power supply and communication via FDnet

- **Environmental**

- ecologically processing
- recyclable materials
- electronic und synthetic material simple separable

- **Characteristics sounder base FDSB291**

- base addressable
- sound intensity and sounds adjustable, sounds are synchronized with all alarm devices
- screw less connection terminals
- no auxiliary power supply required; power is supplied via FDnet
- incl. 2 micro terminals DBZ1190-AA
- space for auxiliary terminals, for the connection of an alarm indicator

- **Characteristics sounder base FDSB292**

- base collective
- 1 sound, 1 sound intensity, no synchronization of sounds
- screw less connection terminals
- no auxiliary power supply required; power is supplied via detector line
- incl. 2 micro terminals DBZ1190-AA
- space for auxiliary terminals, for the connection of an alarm indicator

- **Characteristics alarm sounder FDS221-R, FDS221-W**

- protected electronics, high-quality components
- integrated short-circuit isolator
- sound intensity and sounds adjustable
- screw less connection terminals
- no auxiliary power supply required; power is supplied via FDnet
- very low operating current
- periodic testing of the acoustic part (not audible)
- monitoring of device status

Alarm sounder FDS221-R, FDS221-W

- **Function**

- loud alarming in case of fire alarm, clearly recognizable as danger signal

- **Application**

- along escape routes
- corridors
- staircases

Sounder base FDSB291, FDSB292

- **Function**

- The sounder base FDSB291 serves for acoustic alarming in an addressed fire detection system.
- The sounder base FDSB292 serves for acoustic alarming on a collective detector line, when the collective detector line is migrated to FDnet, the buzzer of the sounder base FDSB292 behaves in the same way as the sounder base FDSB291.
- In case of a fire alarm, the signal base triggers an acoustic signal in parallel to the flashing of the detector LED.

- **Application**

- hotel rooms
- hospital rooms
- nursing homes, living rooms and lounges

Installation FDSB22x

- The sounder base FDSB291, FDSB292 and the detector compose a unity, which already has a base and is mounted on ceilings.
- for recess supply wiring
- for surface supply wiring, cable diameter up to 6 mm

FDSB291
Sounder base (FDnet)

FDOOT or FDO or FDT

FDSB292
Sounder base (collective)

FDOOT241-9 or FDOOT241-A9
in collective mode

Installation FDS221

- The alarm sounder FDS221-R, FDS221-W is inserted directly in the detector base and mounted on walls or on the ceiling.
- for recess supply wiring
- for surface supply wiring, cable diameter up to 6 mm in diameter with base FDB221, otherwise use base attachment FDB291 or use base attachment humid FDB293.
- for higher protection category use sealing element FDBZ295 and only with recess supply wiring

FDS221-R
Alarm sounder red

FDB221, FDB221-AA
Detector base
addressable
or
FDB222
Detector base flat,
addressable

FDS221-W
Alarm sounder white

FDS221-x
Alarm sounder red or white

FDBZ295
Sealing element
FDB221, FDB221-AA
Detector base
addressable

Dimensions

FDS221-R, FDS221-W without base

Height with base FDB221 = 52.5 mm
Height with base FDB222 = 47.5 mm
Height with base FDB221 and
sealing element FDBZ295 = 55 mm

FDSB291, FDSB292

Technical data

	FDS221-R / FDS221-W	FDSB291	FDSB292
Operating voltage	DC 12...33 V	DC 12...33 V	
Operating current (quiescent)	250 µA	150 µA	
Sound activated	3.5 mA	1.2 mA	
Number of sounds	11 2 activation levels 3 sound intensities	11 2 activation levels 2 sound intensities	1 1 activation level 1 sound intensity
Sound intensity	80...99 dB(A)	80...88 dB(A)	84 dB(A)
Ext. alarm indicator (AI)	2	1	
Operating temperature	-25...+70 °C	-25...+70 °C	
Storage temperature	-30...+75 °C	-30...+75 °C	
Humidity	≤95 % rel.	≤95 % rel.	
Communication protocol	FDnet	FDnet	collective
Connection terminals	according to detector base	0.2...1.5 mm ²	
Color	red, ~RAL 3000 white, ~RAL 9010	white, ~RAL 9010	
Protection category EN 60529 / IEC 60529 with	mounting on the wall with cable feed from bottom →	IP43	
– base FDB221 or FDB222		–	
– base attachment FDB291	IP43, otherwise IP40	–	
– base FDB221 and sealing element FDBZ295	IP44	–	
– base attachment humid FDB293	IP54	–
